Plague Workshop Agenda

Tuesday October 27th – Thursday October 29th

Convocation Hall (University Hall Room 213)

Tuesday October 27th

Welcome/Introductions/Housekeeping: 8:30 – 9:00

Session 1: 9:00 – 10:30

Evolutionary Genetics & Bacterial Innovations (Theme leaders: Sebastian, Guillem, Anne, Marcel, Javier, Priyanka/Mark/Jim/Jeff)

Focuses on genomic evolution, genomic modifications, i.e. structural or genetic (LPS, *Pla*, *Ymt*), and the transition from Y. *pseudotuberculosis* to *Y. pestis*.

Coffee break: 10:30 – 11:00

Session 2: 11:00 – 12:30

Transmission Dynamics & Vector Biology (Theme leaders Joe, Pierre, Deb, others?)

Covers the mechanics of spreading, vectors (fleas and alternatives), non-traditional transmission routes, and geographical spread.

Lunch 12:30 – 1:30

Session 3: 1:30 – 3:00

Pathogenesis, & Host Immune Evasion (Theme leaders: Luis, Pierre, Christian, Javier)

Attempts to consider molecular-level interactions, enzymatic pathways, clotting and clot dissolution and how the bacteria maneuvers inside host tissue and evades rodent/human immune systems.

Coffee break: 3:00 – 3:15

Summary/Topics to (re)visit 3:15 – 4:00

Dinner: 6:30pm
Cumbrae's | 26 King Street West, Dundas L9H 1P7 | 905-628-4332

Wednesday October 28th

Welcome back/Housekeeping: 8:45 – 9:00

Session 1: 9:00 – 10:30

Ecology, Environmental Reservoirs & Persistence (Theme Leaders: Dan, Ann, Deb, Tim)

Explores how the pathogen maintains itself in nature, cycles between outbreaks, adapts to specific hosts, remains latent and eventually spillover to cause epizootics/epidemics

Coffee break: 10:30 – 11:00

Session 2: 11:00 – 12:30

Epidemiology, History, Modelling & Pandemics (David, Ben/Jonathan, Maria, Nükhet)

Addresses historical pandemics, macro-level dynamics, and the mathematical/computational frameworks needed to simulate them.

Lunch 12:30 – 1:30

Session 3: 1:30 – 3:00

Therapeutics, Vaccines, Clinical Interventions, public health, & diagnostics (Christian, Malick, Guillem)

Focuses on translated clinical applications, trial logistics, and pharmaceutical solutions.

Coffee break: 3:00 – 3:15

Summary/Topics to (re)visit 3:15 – 4:00

Dinner: 6:30pm
Quatrefoil | 16 Sydenham Street, Dundas L9H 2T4 | 905-628-7800

Thursday October 29th

Welcome back/Housekeeping: 8:45 – 9:00

Session 1: 9:00 – 10:30

Wrap Up – Where to next and how?

An Ecological/Evolutionary/Historical/Host-Pathogen Synthesis (Rav, Hendrik, Tim)

Coffee break: 10:30 – 10:45

Session 1 (continued): 10:45 – 11:45

Wrap Up – Where to next and how?

An Ecological/Evolutionary/Historical/Host-Pathogen Synthesis (Rav, Hendrik, Tim)

Close: By 12:00
Thank you!
